VISHAL GAJULA

+91 7386391450 | vishalgajula0709@gmail.com | Secunderabad, India
Portfolio | Vishal Gajula | Gajula Vishal | Vishal Gajula

Skills

- **Programming Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, HTML, CSS, Responsive Design, State Management
- **Backend:** Node.js, Express.js, Hono, REST APIs, WebSockets, Authentication, JWT, RBAC
- **Databases:** PostgreSQL, MongoDB, Prisma ORM, Database Design, Query Optimization
- **Developer Tools:** Git, GitHub, Postman, Cloudflare Workers, Vercel
- **Languages:** English, Telugu, Hindi

Work Experience

- **Freelance Full Stack Developer** *06-2025 – 09-2025*
  Kadupuninda Restaurant – Meal Ordering Platform Secunderabad, India
  - Developed **10+ REST APIs** and **15+ React components** covering authentication, menus, orders, and customer workflows.
  - Reduced API response time by **~35%** through PostgreSQL query optimization and connection pooling.
  - Cut page load time by **~40%** using React code-splitting, lazy loading, and optimized rendering.
  - Reduced authentication errors by **~90%** through JWT-based authentication and role-based access control.

Projects

- **NoteLM – Advanced RAG Learning Assistant** *N/A*
  Technologies: Next.js, TypeScript, Node.js, OpenAI, Pinecone, PostgreSQL, Prisma, Inngest
  - Built **20+ reusable components** and backend workflows for document ingestion, chat, navigation, and source references.
  - Supported **5 source types** with automated parsing, chunking, embeddings, indexing, and retrieval pipelines.
  - Implemented **1536-dimensional embeddings** and retrieved top-**6** relevant chunks for contextual responses.
  - Integrated Inngest for asynchronous processing, improving reliability of document ingestion and background workflows.
- **Persona AI – Persona-Driven Agentic Chat Platform** *N/A*
  Technologies: React.js, TypeScript, Node.js, Express.js, OpenAI GPT-4o-mini, YouTube API [] [link]
  - Built a full-stack conversational platform supporting **2 AI personas** with dynamic prompts and personalized responses.
  - Developed an agentic backend pipeline with **4 core stages** for contextual reasoning and response generation.
  - Implemented **SSE streaming** for real-time responses and integrated YouTube search for contextual content retrieval.
- **Delish – Ready Restaurant Ordering System** *N/A*
  Technologies: React.js, Cloudflare Workers, Prisma, PostgreSQL, WebSockets [] [link]
  - Built **20+ reusable components** and **15+ REST APIs** for menus, carts, orders, dashboards, and authentication.
  - Achieved **sub-200 ms** real-time order updates using WebSockets across waiter and kitchen workflows.
  - Improved database read performance by **~40%** through PostgreSQL indexing and optimized API queries.
  - Reduced backend cold-start time by **~55%** by migrating endpoints to Cloudflare Workers.

Education

- **Malla Reddy Institute of Engineering and Technology** *2022 – 2026*
  B.Tech in Computer Science and Engineering | CGPA: 8.2/10 Secunderabad, India
  - Coursework: DSA, OOPs, DBMS, Software Engineering, Web Development

Certifications

- **Chai Code GEN AI Cohort** *2026*
- **100xDEVS MERN Development** *2025*
- **Technothon 2.0 Participant** *2025*
